

Kindergarten & First Grade News

November 13, 2017

Blessings to you all!!!!!!!

I gotta say that a full day of teaching is different than having a half day in the office. All is good!

In math we continue, in Kindergarten, to solidify counting forward and backward and counting on from 5. First grade is looking at doubles, doubles plus 1 and the relationship between facts.

In science we are talking about the weather. The students are going to make a prediction for the next school day for a couple of weeks. Then we will see how well they did. Encourage them to listen to weather reports on the radio or tv. (I had several predictions of snow for tomorrow 😊. Definitely wishful thinking on their part)

Show and Tell on Friday needs to relate to the weather. So it might be something they wear in one season that they don't wear in another season or a weather tool/instrument or something else. Be creative!

Blessings on your week.
