

3-13-2017

Greetings in Christ,

Tuesday is Pi Day. Pi is rounded to 3.14 and is used for determining measurements of circles. Therefore, extra credit will be given in math class for bringing in a circular food for classmates to measure and find radius, diameter, circumference, area, and more. I am planning to bring in an apple pie and a pumpkin pie.

Thank you for attending both church services last week. I heard many comments on how well the kids sang and that they could be understood. I am proud of you. I also thank you for donating supplies for the spaghetti dinner. You helped to make it a success.

There will be a science test next week.

Friday, March 24<sup>th</sup> is the last day of the quarter. All missing assignments must be turned in by that date for credit. Some students have a couple missing assignments, others have many.

There is an opportunity for tickets and a bus to "Lamb of God" at Chenery Auditorium on March 25 6:30-9:30 pm. Call for information.

God bless and have a great week.

Mr. Jeff Weiss
